GENERATIONS BUILDING COMMUNITIES TOGETHER

LOW TRAFFIC AREAS

create thriving communities and strengthen social connections, promoting overall well-being. We work with local authorities to promote 20-minute neighbourhoods from a pedestrian perspective, strengthening local high streets and community connections.

CLEAN AIR

allows everyone breathe easier. We work with school communities to stop cars from idling at school gates and create traffic-free streets during drop-off and pick-up times.

SAFER ROUTES

encourage more children and families to walk to school and explore their surroundings. We help children design these safe pathways, enabling more families to walk and wheel their everyday journeys.

ACCESS TO GREEN SPACES

enhances mental health by encouraging people to walk in nature. We collaborate with communities to ensure local greenspace routes are accessible, functional, and enjoyable.

WALKING TOGETHER

combats loneliness and helps people transition from inactivity to activity. We partner with community groups and health providers to get communities walking.

LIVING STREETS

SCOTLAND

paths for all
